Jill Hanson
Beadle
450 3rd St SW, Suite 201
Huron, SD 57350

RE: Drop boxes and drop off locations

Dear Jill Hanson,

In the past several years remote absentee ballot collecting devices and locations (hereinafter called drop boxes and drop locations) have become common in the United States. Unfortunately, these devices and locations have created an ideal environment for ballot harvesting during elections, which has led to significant issues with election integrity.

It has come to our attention that your county has used a ballot drop box(es). Per SDCL § 12-19-7, ballot drop boxes or ballot drop locations are not legal.

While we are hopeful Beadle County will follow SDCL 12-19-7, we understand there may be pressure to do otherwise. Please note that if Beadle County continues to use ballot drop boxes or drop locations where ballots can be taken for pickup; this letter is proper notice, pursuant to SDCL § 3-21-3 (2) that potential claims against related surety bonds for persons and entities may be pursued.

Thank you for your leadership and compliance with SDCL § 12-19-7.

Sincerely,

We The People for Free, Fair and Transparent Elections, LLC

Buffalo, SD 57720

RE: Drop boxes and drop off locations

Dear Kathy Glines,

In the past several years remote absentee ballot collecting devices and locations (hereinafter called drop boxes and drop locations) have become common in the United States. Unfortunately, these devices and locations have created an ideal environment for ballot harvesting during elections, which has led to significant issues with election integrity.

It has come to our attention that your county has used a ballot drop box(es). Per SDCL § 12-19-7, ballot drop boxes or ballot drop locations are not legal.

While we are hopeful Harding County will follow SDCL 12-19-7, we understand there may be pressure to do otherwise. Please note that if Harding County continues to use ballot drop boxes or drop locations where ballots can be taken for pickup; this letter is proper notice, pursuant to SDCL § 3-21-3 (2) that potential claims against related surety bonds for persons and entities may be pursued.

Thank you for your leadership and compliance with SDCL § 12-19-7.

Sincerely,

We The People for Free, Fair and Transparent Elections, LLC

In the past several years remote absentee ballot collecting devices and locations (hereinafter called drop boxes and drop locations) have become common in the United States. Unfortunately, these devices and locations have created an ideal environment for ballot harvesting during elections, which has led to significant issues with election integrity.

It has come to our attention that your county has used a ballot drop box(es). Per SDCL § 12-19-7, ballot drop boxes or ballot drop locations are not legal.

While we are hopeful Potter County will follow SDCL 12-19-7, we understand there may be pressure to do otherwise. Please note that if Potter County continues to use ballot drop boxes or drop locations where ballots can be taken for pickup; this letter is proper notice, pursuant to SDCL § 3-21-3 (2) that potential claims against related surety bonds for persons and entities may be pursued.

Thank you for your leadership and compliance with SDCL § 12-19-7.

Sincerely,

We The People for Free, Fair and Transparent Elections, LLC
