Remarks

Pennington County, home to Rapid City, is the second most populated county in South Dakota and the largest in the western half. It has sustained modest growth in recent decades, but not to the same degree as Minnehaha County, the state's largest county. It has only backed one Democrat presidential nominee since 1940, in Lyndon Johnson's 1964 national landslide.

It is likely that at least 6,606 fraudulent ballots were cast in the 2020 presidential election in Pennington County, and the most disparate precincts are almost exclusively clustered in the southern half of Rapid City, with each precinct rated high for statistical indication of election manipulation (colored *red* on the map) containing between 150 and 350 likely fraudulent ballots. All precincts appearing in the *worst precincts* list should be prioritized for canvassing to identify voter registration illegalities, especially since voter registration fraud in South Dakota has been proven to be prevalent, particularly in transient living quarters such as RV parks, apartments, and assisted living centers.
